

## KARNI & SAUL'S BIOGRAPHY

Arrestingly fresh and groundbreaking in terms of both aesthetic and approach, the husband and wife team, **Karni & Saul** have been collaborating for more than ten years.

Karni's training was in photographic and stills imagery and her sharp vision is complimented by Saul's exceptional skills in traditional 2D & 3D animation technique and experimental CGI. The end result is unusually striking, dynamic, impactful, and perhaps best described as a kind of hyperrealism.
